OptPersonal statement

The common goal of my research activities is to quantify the true impact of diseases and health inequalities, and to make model-based evaluations of prevention and control. I have developed and implemented the computational framework for the WHO/FERG estimates of the global burden of foodborne disease. Currently, I am implementing the Belgian national burden of disease study and am chairing the COST Action CA18218 “European Burden of Disease Network”.

My research activities have led to more than 100 peer-reviewed scientific publications in national and international journals. My scientific expertise in burden assessment, risk assessment and health economics has been recognized through invitations to various national and international expert groups, including the Belgian Superior Health Council, the Belgian Food Safety Authority, and EFSA, WHO and FAO.

OptEducation

- 2015** PhD Veterinary Sciences; Ghent University, Merelbeke, BE
PhD Public Health; Université catholique de Louvain, Brussels, BE
- 2014** MSc Statistics; Katholieke Universiteit Leuven, Louvain, BE
- 2010** MSc Veterinary Medicine; Ghent University, Merelbeke, BE
- 2007** BSc Veterinary Medicine; Ghent University, Merelbeke, BE

OptEmployment

- 2018-** Visiting professor, risk analysis; UGent, Merelbeke, BE
- 2016-** Senior epidemiologist; Sciensano, Brussels, BE
- 2018-19** Visiting professor, advanced epidemiology; UCL, Brussels, BE
- 2016-18** Visiting professor, health economic evaluations; UCL, Brussels, BE
- 2015-16** Assistant scientist, global food safety and zoonoses; UF, Gainesville, USA
- 2015** Post-doctoral researcher; UGent, Merelbeke, BE
- 2013-14** Consultant; World Health Organization, Geneva, CH
- 2010-15** Doctoral researcher; UGent, Merelbeke, BE & UCL, Brussels, BE
